

PODS

# SPACE WITHIN A SPACE

Within open plan office environments it is more common today for employees to share resources such as printers and scanners. Aside from the general ambient noise of an office it is generally accepted that it is these kind of devices

whirring into life that provide much of the acoustic and visual distraction of colleagues utilising them.

## DESIGN

Our team of talented in house designers are responsible for creating elegant, innovative furniture designs which not only look beautiful, but minimise the impact on the world around us.

They come from all over the world, but are based in our Design Centre located in a quiet Lancashire village just outside the Ribble Valley. Our dedicated facility is over three floors which include studios, a materials test centre and prototyping lab.

PODS

### Standard Features (\*Selected models only)

- Internal Steel frame with multi layered foam construction
- Outer vertical panels upholstered in Camira Blazer fabric (two-tone is standard)
- Quick release panel connector system
- Levelling adjusters
- Integral work surface
- Integral work surface power and data module, incorporating; 1 x 3.15 Amp power socket, powered USB and Cat 6 Data with 1.5m supply leads
- Work surface mounted power and data module, incorporating; 2 x 3.15 Amp power

- socket and 2 x Cat 6 Data with 1.5m supply leads
- Integral under work surface vertical cable management
- Low voltage LED task light
- Integral seat and backrest

### Optional Features

- Two-tone upholstery on integrated seat units

### Material Content

Components are constructed of the following

### Recycled Content

Contains up to 39.75% of Recycled Material

### Recyclability

The range is 99% recyclable
